PHILIPS

sense and simplicity

Highlights

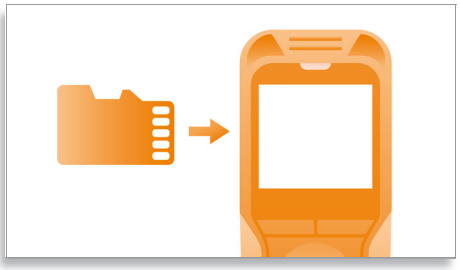
2 GB memory built-in

With the 2 GB of built-in memory, your Voice Tracer is able to capture up to 22 days of continuous recording.

High-quality microphone

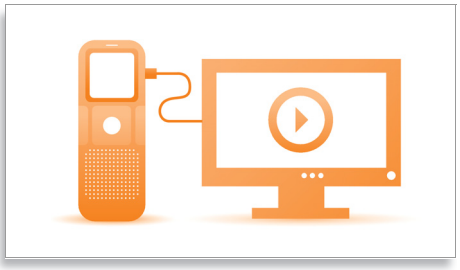
The built-in stereo high-quality microphones produce far better and clearer recordings than standard microphones found in other devices. The recording sensitivity is increased, thus picking up more voice signal without compromising sound quality.

Micro SD memory card slot



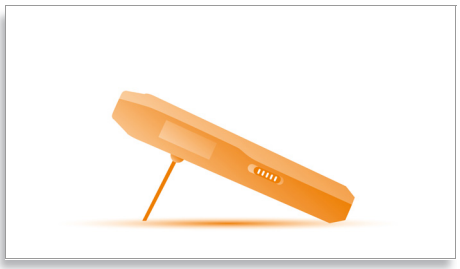
Virtually unlimited recording capacity thanks to a micro SD memory card slot supporting up to 32 GB of additional memory.

Plug and play



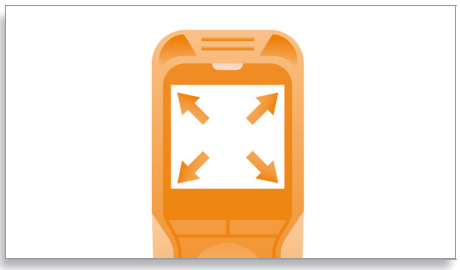
Your VoiceTracer just works - Plug and Play in Windows, Mac OS and Linux.

Integrated fold-out stand



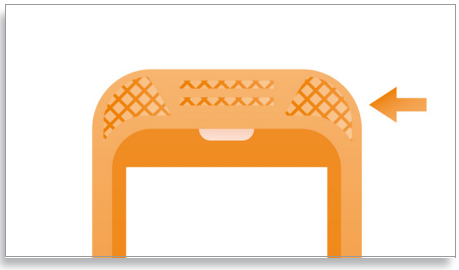
With the integrated fold-out stand on the back of the Voice Tracer, you can conveniently position your voice recorder towards the sound source.

Large display



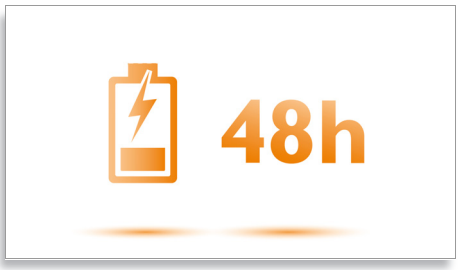
The high-resolution dot matrix display built into the Voice Tracers supports 8 languages and provides clear recording status information.

Metal microphone grille



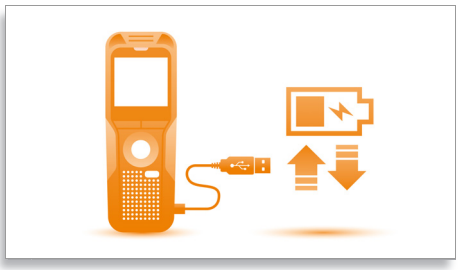
A well-engineered microphone grille is able to make a good microphone stand out even more. The grille built into the new Voice Tracers guarantees crystal clear recordings.

Extra long battery runtime



The batteries of the new Voice Tracers last for up to 48 hours for extra long recording sessions.

Rechargeable batteries



The new Voice Tracers come with rechargeable batteries for more than 50 hours of continuous recording. Additionally, you can help protect the environment by simply recharging the batteries of your device using USB instead of buying new batteries.
